

## CLOSE BEACON

CLOSE BEACON is a Bluetooth beacon device that tells a smartphone precisely where it is so that an app can act on the specific location.

CLOSE BEACON has a wide spectrum of use cases including contactless payments, virtual point-of-sales, location based promotions, store check-in, pre-order, virtual loyalty & reward programs, targeted and profiled marketing in-doors and out-doors, product information and much more.

High security and integrity, protects against malicious attacks Integrity control: only authorized apps & users can connect.

- 3 year functionality on one con cell battery (replaceable).

- 1 year warranty

Supports iPhone, Android and Windows Bluetooth 4.1 enabled smartphones

## Bluetooth Technology

CLOSE BEACON is battery-powered Bluetooth beacon stand-alone device. It is built on one of the world-leading Bluetooth Smart chip and takes advantages of the chip's world's lowest power consumption, size and flexible architecture to produce a long-lasting and feature-packed solution.

### Performance

CLOSE BEACON is designed for long usability in terms of low power consumption and high performance antenna to still achieve long range.

Configuration App available for easy secure configuration.
